

List of Figures

Figure 1. Conceptual Relationships among the Terms Harm, Significant Harm and Serious Harm	5
Figure 2. Locations of Major Features in the Loxahatchee River and Estuary	9
Figure 3 Average, Minimum and Maximum Rainfall, by Month, for the Jupiter Area (1900-1990).....	11
Figure 4. Deviation from annual mean rainfall.	12
Figure 5. Major Drainage Basins in the Loxahatchee River Watershed.....	14
Figure 6. Location of Loxahatchee Estuary macroinvertebrate sampling sites used by Dent et al., 1998.....	28
Figure 7. Major features that influence drainage in the river basin.....	33
Figure 8. Current generalized land use/land cover in the Loxahatchee watershed	40
Figure 9. Locations of permitted withdrawal facilities within the Loxahatchee River watershed.....	43
Figure 10. Water use in the Loxahatchee River watershed from different sources	44
Figure 11. Water Quality Stations Sampled by the Loxahatchee River District	45
Figure 12. Wild and Scenic Corridor Plant Communities within Jonathon Dickinson State Park.	47
Figure 13. Loxahatchee River Wild and Scenic River Corridor Classifications	54
Figure 14. Loxahatchee River watershed boundary showing locations of sub-basins	63
Figure 15. Groundwater contours in the Loxahatchee River watershed (April 1984).....	64
Figure 16. Locations of vegetation survey sites along the Northwest Fork and Kitching Creek.....	84
Figure 17. Relationship between the ratio of the time that a station was exposed to salinities above 2 ppt (<i>Ds</i>) and the time between exposure events (<i>Db</i>).....	88
Figure 18. Conceptual diagram of the saltwater wedge	94
Figure 19. G-92 Historical Flows Delivered to the NW Fork	98
Figure 20. Flow Duration Curve for Lainhart Dam (1971-2001).....	99
Figure 21. Water Management Releases from the C-18 canal via S-46 (1990-2001).....	101
Figure 22. Locations of permitted projects with potential to impact flows in the C-18 Canal, Loxahatchee River, or tributaries.	105
Figure 23. Relationship between water table elevation and the depth below ground at which saltwater intrusion occurs	109
Figure 24. Number of Observed Vascular Plant Species versus river mile, Northwest Fork of the Loxahatchee River and Kitching Creek (November 2000).....	112
Figure 25. Relationship between total number of vascular plant species and location (river mile) along the Northwest Fork of the Loxahatchee River.....	114
Figure 26. Total forest canopy area within height classes for three sites along the Northwest Fork	118
Figure 27. 1940 vegetation coverage along the Loxahatchee River, by segment.....	123
Figure 28. 1995 vegetation coverage along the Loxahatchee River, by segment.....	124
Figure 29. Mangrove Encroachment between River Miles 6.6 and 8.9.	125
Figure 30. Vegetation changes along the Loxahatchee River between river miles 6.6 and 8.9, 1940 to 1995.....	126
Figure 31. Maps showing results of vegetation surveys along the Northwest Fork, 1985-1995	131
Figure 32. Simulated salinity time series generated from the hydrodynamic/salinity model developed for the Loxahatchee River showing the salinity regime at river miles 10.2 and 9.2.....	137
Figure 33. Loxahatchee MFL Recovery Plan, Phases 1- 3 (by 2006) (From: Northern Palm Beach County Comprehensive Water Supply Plan).....	155
Figure 32. Incremental Increase in flows directed to the Northwest Fork as Projects in the northern Palm Beach County Comprehensive Water Management Plan are completed	158
